DR LINDA MAOYI

DATA SCIENTIST

Dr Linda Maoyi, a skilled data analytics professional has a proven track record of tackling diverse data-related challenges in various industries.

He possesses extensive expertise in data extraction, manipulation, analysis, and reporting.

At SAPRIN, Linda's responsibilities encompass the development and maintenance of the SAPRIN cloud infrastructure, data repository management, and the production of longitudinal harmonised datasets.

He plays a crucial role in ensuring the adoption of common data quality assurance measures and methods across the network.

Linda's expertise is instrumental in creating and maintaining an efficient and reliable data infrastructure, facilitating seamless data integration, and promoting data quality within SAPRIN.
