MFUNDO KHUMALO

DATA SCIENTIST INTERN

Mfundo Khumalo is an exceptional data scientist intern with a passion for leveraging his skills in various fields.

Mfundo holds a BSc (Hons) in Electronic Engineering from the University of Kwa-Zulu Natal.

His diverse range of interests encompasses data science, big data, image processing, finance, and environmental studies.

He is an invaluable asset, contributing his expertise in data extraction, manipulation, analysis, and modelling.

With his meticulous approach and dedication to his craft, Mfundo plays a crucial role in driving insightful decision-making processes.

Mfundo embodies the perfect blend of technical prowess and a thirst for knowledge. His ability to extract actionable insights from complex datasets is a testament to his proficiency in data science.
