

TINOFA MUTEVEDZI

RESEARCH OPERATIONS MANAGER

Tinofa Mutevedzi is the Research Operations Manager for SAPRIN, with expertise in demography, population health, research ethics, and research operations management.

With over 25 years of experience, he has developed and designed data collection systems, ensuring quality assurance for various studies ranging from longitudinal Health Demographic Surveillance Systems (HDSS) to clinical trials.

In SAPRIN, he leads the strategic direction, harmonisation, and effective functioning of the common HDSS research infrastructure platform across all HDSS Nodes. His responsibilities include designing data collection systems, ethical frameworks, and quality assurance systems, as well as budgeting, coordinating multi-nodal research studies, and developing community engagement strategies.

Previously, he served as the Head of the Population Research Department at the Africa Health Research Institute (AHRI) in KwaZulu-Natal from 2003 to 2017. He also held positions as the Clinical Trials Programme Coordinator for UZ-UCSF Research Programme (1999-2003) and Research Manager for the Manicaland HIV Prevention Project in Zimbabwe (1996-1999). He has contributed to over 25 peer-reviewed journal articles on population health, HIV, and bioethics.
