

SAPRIN WORKING DINNER ON 9 OCT 2023

14 OCTOBER 2023

Mark Collinson was running a workshop at University of Pretoria for two days on 9-10 October 2023, with the purpose of teaching staff and post-graduates in the Faculty of Health Sciences how to do longitudinal statistical analysis using SAPRIN data. The Principal Investigator of the local SAPRIN sub-nodes in Attridgeville and Melusi, Prof Jannie Hugo suggested a meeting with the field leaders to discuss issues they were facing in their work. A working dinner was the best time to meet because we had full days otherwise accounted for. It was a fruitful and valuable meeting.

SAPRIN working dinner with field site leaders of the GRT-INPSIRED SAPRIN sub-node (in Pretoria), from the left, Prof Jannie Hugo (PI of the SAPRIN sub-node), Ms Zimasa Phote (verbal autopsy leader), Ms Rebaone Madzivhandila (operational manager), Mr Ofentse Mathibe (data manager), and Prof Mark Collinson (SAPRIN co-director)
