

AUGUSTINE KHUMALO

DATA SCIENCE INTERN

Augustine is a dynamic data science intern at SAPRIN. He has a strong foundation in software development and is passionate about continuous learning.

He holds a Bachelor of Science (BSc) degree in Mathematical and Computer Science and a BSc Honours, both from the University of Limpopo.

Augustine possesses skills in databases, computer networks and artificial intelligence. He is an analytical thinker with solid problem-solving abilities.

With his specific skills set and enthusiasm coupled with his qualifications, Augustine is an excellent addition to the SAPRIN team.

He is an invaluable asset and uses his expertise to assist with data extraction, manipulation, analysis and modelling.
