

ZOH MVUYANE

RESEARCH OPERATIONS COORDINATOR

Ms Zoh Mvuyane is the Research Operations Coordinator at SAPRIN. Zoh assists to ensure optimal, harmonised and coordinated research operational support for Health Demographic Surveillance Systems platforms and multinodal projects.

Zoh brings rich experience to the position, having held the position of Clinical Project Manager at the University of Cape Town. In this post she managed research studies, facilitated protocol submission to ethics committees and ensured Good Clinical Practice (GCP) compliance and staff training.

Zoh has previously worked at the South African Medical Research Council (SAMRC) as a Study Coordinator. Here she coordinated the recruitment of study participants, ensured adherence to study protocol and GCP. During her tenure as Research Assistant at the SAMRC she rendered an administrative role, registering participants, administering informed consent and behavioural questionnaires.

She holds several qualifications including, a Doctor of Medicine from Caucasus International University, Masters in Medical Science (Medical Biochemistry) from University of KwaZulu-Natal, a BSc (Honours) in Biomedical Sciences from the University of Lincoln and a Bachelor of Medical Science from the University of KwaZulu-Natal..
